

EODCOE-33-3/2018

7 March 2018

Dear Ladies and Gentlemen,

## **INVITATION FOR THE NATO EOD DEMONSTRATION AND TRIALS 2018**

I have the honour to invite all NATO and partner nations' SMEs and defence industry companies' representatives as well as all targeted NATO bodies and relevant NATO organizations to participate in the NATO sponsored event

### **NATO EOD Demonstration and Trials 2018 held from 19<sup>th</sup> to 20<sup>th</sup> September 2018 in Bratislava, Slovakia,**

the biennial event for experts from NATO and partner armed forces and defence industry, which will highlight the latest EOD/IEDD technology through live demonstrations, static exhibition, seminar and conference.

I am addressing the national armaments authorities, EOD SMEs from NATO commands and from NATO and national training centres, including SMEs coming from current operations, as the most relevant community able to present their lessons learned and to define the urgent military requirements for the EOD support to military disciplines.

As EOD is part of cross-disciplinary function to EO threat mitigation, all respective companies are invited to present and demonstrate their latest solutions.

I would very much appreciate to pass this information to your appropriate national authorities. I am convinced that your support towards this event will promote it and be beneficial for the entire EOD/IEDD community.

Yours sincerely,

Róbert Császár  
Colonel, SVK Army  
Director
